

TP FINAL

Rapport : Le rapport devra être au format pdf

Syrine ABDELBASSET

Une présentation et mise en page professionnel est attendue

CHACUN DES POINTS CI DESSOUS DEVRA ETRE ACCOMPAGNE D'UN SCREESHOT

1) Installation du premier contrôleur de domaine

2) Installation du deuxième contrôleur en mode core

3) Installation de DFS et partage configurées

4) Replication et test des replications DFS

5)GPO du TP GPO demandé activées

Création des GPO dans le Holding

1. Désactivation de l'invite de commande

2. Désactivation de la base de registre

3. Désactivation des mises à jour automatiques

Configure Automatic Updates

[Previous Setting](#) [Next Setting](#)

☐ Not Configured Comment:

☐ Enabled

☒ Disabled

Supported on: Windows XP Professional Service Pack 1 or At least Windows 2000 Service Pack 3
Option 7 only supported on servers of at least Windows Server 2016 edition

Options: Help:

Configure automatic updating:

The following settings are only required and applicable if 4 is selected.

☐ Install during automatic maintenance

Scheduled install day:

Scheduled install time:

If you have selected "4 – Auto download and schedule the install" for your scheduled install day and specific schedule, you also have the option to limit updating weekly, bi-weekly or monthly occurrence, using the options below:

☐ Every week

Specifies whether this computer will receive security updates and other important downloads through the Windows automatic updating service.

Note: This policy does not apply to Windows RT.

This setting lets you specify whether automatic updates are enabled on this computer. If the service is enabled, you must select one of the four options in the Group Policy Setting:

2 = Notify before downloading and installing any updates.

When Windows finds updates that apply to this computer, users will be notified that updates are ready to be downloaded. After going to Windows Update, users can download and install any available updates.

3 = (Default setting) Download the updates automatically and notify when they are ready to be installed

Windows finds updates that apply to the computer and

20) Le screen attendu est le screen de fin avec le message SUCCESS

Tous se passais bien, l'installation n'a pas pu se faire.

J'ai eu plusieurs erreurs, Échec de BCDBoot text, Source inconnue Cause :
Généralement liée aux partitions/disque, Fichier introuvable text.

J'ai essayé de les régler, mais tous ce que je faisais, ça ne fonctionnait pas. Je ne sais pas vraiment pourquoi. Je vous mets quand même la capture.
